Ankle-Brachial Blood Pressure

WHOTEN . HELASH HTSOMMAN				1					FORM CODE: ABB VERSION B 10/21/2008
ID NUMBER:					CC	NTA	CT Y	/EAR: U 9	
LAST NAME:								INITIALS:	

INSTRUCTIONS: This form should be completed during the participant's clinic visit. ID Number, Contact Year, and Name must be entered above. Whenever numerical responses are required, enter the number so that the last digit appears in the rightmost box. Enter leading zeroes where necessary to fill all boxes. If a number is entered incorrectly, mark through the incorrect entry with an "X". Code the correct entry clearly above the incorrect entry. For "multiple choice" and "yes/no" type questions, circle the letter corresponding to the most appropriate response. If a letter is circled incorrectly, mark through it with an "X" and circle the correct response.

"You will have blood pressures checked in your arms and legs. The method used to do this is similar to standard blood pressure measures. An ultrasound device will be used allowing you to hear the blood flow while the blood pressure is taken. There is no more discomfort involved beyond having a blood pressure cuff placed on your arms and ankles."

INSTRUCTIONS: This form should be completed during the participant's clinic visit. ID Number, Contact Year, and Name must be entered above. Whenever numerical responses are required, enter the number so that the last digit appears in the rightmost box. Enter leading zeroes where necessary to fill all boxes. If a number is entered incorrectly, mark through the incorrect entry with an "X". Code the correct entry clearly above the incorrect entry. For "multiple choice" and "yes/no" type questions, circle the letter corresponding to the most appropriate response. If a letter is circled incorrectly, mark through it

"These next questions have to do with things that may have happened to you and the way you have been treated over your lifetime. We know from other research that experiences of unfair treatment are common and very important to consider in understanding people's health. These questions will give a picture of the various kinds of experiences of people in the Jackson Heart Study. There are no right or wrong answers; only your experiences. I want to remind you that any information you provide is strictly confidential and will never be identified with you as an individual. Let's start with experiences you may have had on a day-to-day basis."

۱.	Using the responses on this card, tell me how often each of the following things happen to you in your day-to-day life. Just tell me the letter beside the		
	response that most closely matches your experience. [HAND RC #1]	Several times a day	1

Medication Survey Form

FORM CODE: MSR VERSION C 10/09/2008

Missing

CONTACT YEAR	.:	0 9									
LAST NAME:							ID NUMBER	:			

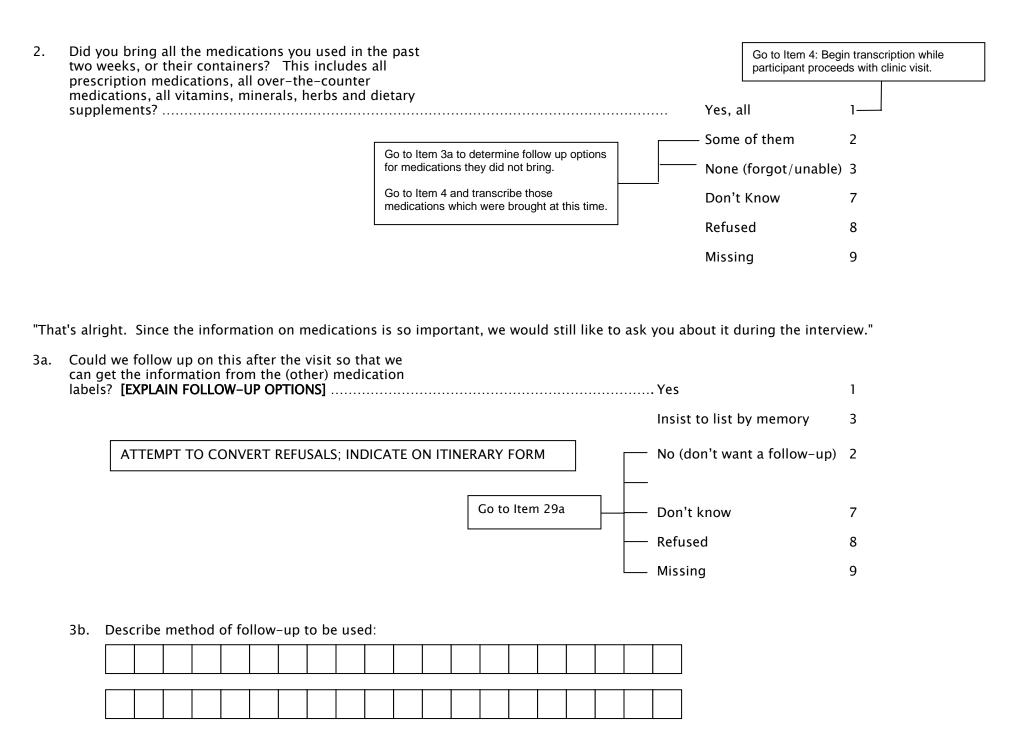

INSTRUCTIONS: This form is completed during the participant's clinic visit in several stages by appropriately trained persons at the workstations identified for this purpose. If the paper form is used for data collection, data are keyed into the data entry system as soon as possible following its completion. ID Number, Contact Year, and Name are entered above. Whenever numerical responses are required, enter the number so that the last digit appears in the rightmost box. Enter leading zeros where necessary to fill all boxes. If a number is entered incorrectly on a paper form, mark through the correct entry with an "X". Code the correct entry clearly above the incorrect entry. For "multiple choice" and "yes/no" type questions, circle the letter corresponding to the most appropriate response. If a letter is circled incorrectly, mark through it with an "X" and circle the correct response.

At the reception station, verify that the medication bag is clearly identified with the participant's name and ID number. Do not open the medication bag or transcribe medications until the participant has signed the informed consent. The transcription section of Section B is completed while the participant proceeds with the visit. Medications are coded by trained field center personnel after the transcription and interview portions have been completed. Code numbers of the interviewer, transcriber and coder are recorded in the appropriate locations.
